STYLIST TIPS

- Add warmth and depth with wood stains in a mix of tones to bring a natural earthy feel to your interior.

- Keeping a colour palette minimal means you can go large on texture. Try mixing natural fibres such as jute, rattan and wood with the softness of velvet.

- Don't get caught up on things "matching" (like all the same cushions) but play around with tones, textures and sizes - you will be surprised how they all just work together.

- Sometimes the beauty of wood grain on the walls is enough and it can replace the need for an artwork.

A beautiful collection. RESENE Colorwood stains from left, RESENE Colorwood Tiri, RESENE Colorwood Pitch Black, RESENE Colorwood Whitewash, RESENE Colorwood Iroko, RESENE Colorwood Natural and RESENE Colorwood Cedar from RESENE COLORSHOPS.

When you're choosing a deep colour, consider using a matte finish, like RESENE SpaceCote Flat, to bring out the depth of the colour.

STYLIST TIPS

- Create a statement with a bold use of colour inspired by your favourite artwork.

- Unused fireplaces can be used as a fun shelving idea for a collection of beautiful objects.

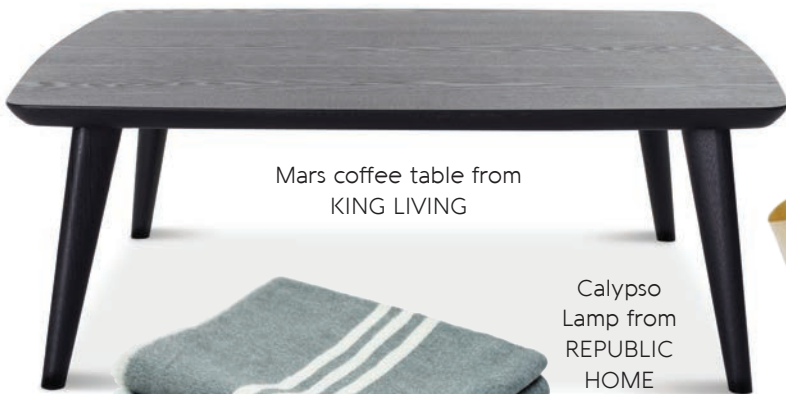

- Use floor rugs to pull the whole room and look together - treat them as an artwork on the floor.
