# CHOOSE LIFE IN COLOUR

Find your new favourite in Resene's latest fandeck.

In a world of grey, the colours are what we see. We look to that ray of sunshine, the bright rainbow stretching across the sky and the brilliant shade of a bud on a spring flower. Each touch of colour brightens our day and hints of fresh promise. Colour brings with it an intrinsic, uplifting sense of hope and optimism.

The Range, Resene's seriously cheerful new fashion colour collection, brings together the latest design trends to help you find just the right paint palette to bring out the best in your home. Then team your favourite colour with the garden of your dreams, by choosing a wall covering in complementary hues from the new Resene Fiore Wallpaper Collection.

Don't pick a trend or a colour purely because it is popular, choose it because it sings to you. Choose it because it brightens your day and lifts your mood. Choose it because you truly love it.
