

Make it *matt* with Resene Lumbersider Matt

One of Resene's most popular outdoor paints is now available in a choice of finishes.

It wasn't long ago that the only option for ensuring your paint was tough enough was to choose a glossy, solvent-based enamel. As coatings technology has improved over the last few decades, it's now become possible to get durable, washable, waterborne paint in a low sheen - or even flat - formula.

For the past ten years or more, lower sheen finishes have been the preferred choice for interior surfaces among DIYers and designers alike. But lately, we have been seeing the same trend affecting exterior finishes, too. Since they have to stand up to whatever Mother Nature throws at them, exterior coatings are typically glossier than interior counterparts. The Resene Technical Team has now created a waterborne option for those after a flatter style finish on outdoor surfaces - **Resene Lumbersider Matt**.

Resene

the paint the professionals use

Resene Lumbersider Matt offers a flatter, more matt look than the low sheen finish of traditional **Resene Lumbersider Low Sheen** in a waterborne formula. Designed for exterior walls, weatherboards and landscaping elements, **Resene Lumbersider Matt** is available in a limited range of colours, including whites, pastels, light colours and select off-black tones.

Remember - when choosing a dark colour outdoors, ask for it to be tinted into a **Resene CoolColour** version of your chosen formula. A **Resene CoolColour** looks like a normal colour but, thanks to special pigment technology, it reflects more heat so that the surface and substrate doesn't get as hot as the normal colour.

Overleaf: Walls painted in **Resene Lumbersider Matt** tinted to Resene Alpaca, floor in Resene Walk-on tinted to Resene White Linen, tall pot with handles in **Resene Lumbersider Low Sheen** tinted to Resene White Linen, wooden stool in **Resene Lustacryl** tinted to Resene Negroni with timber top finished in **Resene Woodsman Whitewash** and tall vase and small planter in **Resene Lumbersider Low Sheen** tinted to Resene Pearl Bush. Chair from ECC, throw from Baya, stone vessel from Asili.

Above: **Resene Lumbersider Matt** (painted on the wall) offers a flatter finish than traditional **Resene Lumbersider Low Sheen** (painted on the pots). Wall painted in **Resene Lumbersider Matt** tinted to Resene Alpaca, floor in **Resene Walk-on** tinted to Resene White Linen, stool in **Resene Lustacryl** tinted to Resene Negroni with timber top finished in **Resene Woodsman Whitewash**, planter in **Resene Lumbersider Low Sheen** tinted to Resene Gold Coast and tall vase in **Resene Lumbersider Low Sheen** tinted to Resene Pearl Bush.
