

STYLE AND FUNCTION

PURITY

STAINLESS STEEL TAPWARE

Purity Pulldown
Sink Mixer
RRP\$479

As the smallest room in the house, the bathroom is extremely important to get right. Creating a space that is both functional and practical ensures that you have a stress free start to the day and you are able to bathe away your troubles at night!

Tapware is integral in helping to tie the whole look together. Whether you prefer a more traditional interior style or you like the clean lines of a more minimalist look, Foreno have the tapware for you. Our design team travel the globe to bring New Zealand a range of superior quality tapware for every taste and budget.

If you are looking to make a statement in your bathroom, a freestanding bath mixer to accompany your freestanding bath is the way to go. Adding a sense of luxury, freestanding bath mixers are also highly practical as they come equipped with a handy additional shower head, great for rinsing your hair or washing the family pooch!

Foreno also offers a great range of period style tapware for those homeowners choosing to stay true to the heritage of their home. Traditional bathrooms certainly don't have to be unstylish or dated. Instead beautifully designed bathrooms often incorporate the best of modern

design, creating a timeless and elegant space.

Large wall to floor showers with glass dividers are currently a must-have item for bespoke homes. An inherent approach to maximising space, they also add a sense of style and luxury. A double head shower is of course, the natural choice for these large showers. Paired with tiled walls and a neutral colour palette, a spa-like atmosphere is created- and who wouldn't want to come home to that!?

A well-chosen tap can really make all the difference in pulling your whole look or style together. So make sure you check out the range from Foreno today at foreno.co.nz. For more styling ideas and features, be sure to check out the Inspiration page! ■
